Subject: Review of Full Bond Release and File Closure, Witt Excavating, Witt Sandstone Quarry, S/051/0006, Wasatch County, Utah

Dear Mr. Witt:

On June 16, 2010, we received your request for a full release of the reclamation surety and file closure for the Witt Sandstone Quarry. Before the Division can process this request, you need to provide the following information regarding the reclamation work that was completed.

- Documentation of the Developer's grading plan and a confirmation letter that the Developer will be responsible to reseed the area if the vegetation is not successful.

Once the Division receives this information, we will proceed with processing your request. Please note, an inspection of the reclamation work may be required before we approve the release of any surety. If you have any questions or concerns regarding this letter, please contact me at 801-538-5261 or Leslie Heppler at 801-538-5257. In response, Please reference our file number S/052/0006 regarding this project.

Sincerely,

Paul B. Baker
Minerals Program Manager
